Specialisti dell’outdoor
Specialists in outdoor furniture

Da più di 30 anni realizziamo arredi per l’outdoor studiati per il benessere, la convivialità e il relax delle persone all’aria aperta. Polipropilene, resina rigenerata post consumo e alluminio sono i materiali che abbiamo selezionato sia per la loro totale riciclabilità sia per le qualità che li rendono particolarmente adatti agli spazi all’aperto. Abbinati a esclusivi laminati, tessuti tecnici e una ricca selezione di imbottiti si rivolgono a progetti contract e residenziali con soluzioni che si distinguono per design originale, funzionalità e versatilità.

For over 30 years, we have been making outdoor furniture designed for promoting people’s well-being, socialising and relaxing in the open air. Polypropylene, post-consumer regenerated resin and aluminium are the materials we have selected because they are fully recyclable and have the qualities that make them ideal for outdoor areas. Combined with exclusive laminates, technical fabrics and a wide selection of padded elements, they are intended for contract and residential projects, providing solutions that stand out for their original design, functionality and versatility.

Design e Made in Italy
Design and Made in Italy

Cura di forme, ergonomia e dettagli, alta qualità di materiali e lavorazioni, attenzione all'ambiente e razionalizzazione delle risorse: il design di Nardi racchiude una visione progettuale ampia e, oltre a una prospettiva di produzione, è strumento di ricerca e innovazione continua. Progettare e dare forma a idee originali, proporre soluzioni con uno sguardo proiettato al futuro, realizzare prodotti che tengano conto di sostenibilità etica e ambientale in una filiera quasi a chilometro zero, è la nostra idea di design e di Made in Italy.

Focusing on shapes, ergonomics and details, high-quality materials and workmanship, respect for the environment and rationalised resources: Nardi's design embraces a broad project vision, which is not only a perspective on production but also a means of continuous research and innovation. Designing and shaping original ideas, proposing solutions that look to the future, creating products that consider ethical and environmental sustainability in an almost entirely locally sourced supply chain, this is our idea of Made in Italy and design.

Tecnologia ed esperienza
Technology and experience

Ricerca e avanguardia tecnologica sono principi cardine della nostra filosofia aziendale ma il valore più importante rimane ancora la nostra esperienza e la capacità di applicarla per innovare il presente e immaginare il futuro. La competenza pluri-trentennale nel settore certifica la validità e la sicurezza delle nostre proposte mentre la profonda conoscenza del comportamento fisico-tecnico del polipropilene ci ha permesso di diventare pionieri nella produzione industriale di mobili realizzati anche con una percentuale di resina riciclata post consumo.

Research and cutting-edge technology are cornerstones of our corporate philosophy, but the most important value is still our experience and the ability to apply it in order to innovate the present and envisage the future. Our many years of expertise in the sector prove the validity and safety of our solutions, whereas our in-depth knowledge of the physical and technical nature of polypropylene has enabled us to become pioneers in the industrial production of furniture also made from a percentage of post-consumer recycled resin.

Qualità affidata alle persone
Quality entrusted to people

La qualità sta nei processi codificati, nell'evitare gli sprechi, nel lavorare con responsabilità e nel dare fiducia alle persone. Ogni nostro arredo esprime l'impegno e la nostra volontà e capacità di evolvere costantemente, allenandoci all'innovazione continua. Ma dietro a ogni azione e procedura che determina la qualità dei nostri mobili da esterno ci sono le persone che lavorano con noi. Il successo di ogni prodotto è frutto del loro talento e di una filosofia aziendale dove relazione, dialogo e valore del team sono alla base di ogni rapporto.

Quality lies in encoded procedures, avoiding waste, working responsibly and in putting trust in people. Every piece of our furniture expresses our commitment, willingness and ability to constantly evolve and continuously innovate. But behind every action and procedure that determines the quality of our outdoor furniture are the people who work with us. The success of each product is the result of their talent and a corporate philosophy, where connection, interaction and team value are at the heart of every relationship.

Sviluppo sostenibile
Sustainable development

Da sempre attenti all’ambiente, nel 2019 abbiamo creato la linea produttiva Regeneration dedicata alla realizzazione di arredi contenenti anche una percentuale di resina rigenerata post consumo. Nello stesso anno abbiamo introdotto le analisi LCA su una selezione di prodotti al fine di mettere progressivamente in atto ulteriori azioni per migliorare le nostre performance in ottica green. Tutti i nostri siti produttivi sono in continuo rinnovamento per mantenere l’avanguardia impiantistica e da gennaio 2023, inoltre, utilizzano esclusivamente energia elettrica proveniente da fonti rinnovabili certificate che assicurano una fornitura 100% green di energia.

Always aware of the environment, in 2019 we created the Regeneration product line, dedicated to producing furniture also containing a percentage of post-consumer regenerated resin. In the same year, we introduced LCA analysis on a selection of products in order to gradually implement further actions to improve our green performance. All our production facilities are continuously renewed to ensure cutting-edge systems. Moreover, since January 2023, electricity is used coming exclusively from certified renewable sources that guarantee the provision of totally green energy.

Regeneration

Nardi produce arredi per l'outdoor studiati per il benessere e il relax delle persone. Lavorare al fine di rendere i processi sempre più sostenibili è parte integrante della filosofia dell'azienda che nel 2019 ha inaugurato la linea di prodotti Regeneration dedicata alla realizzazione di arredi per esterno contenenti anche una percentuale di resina rigenerata post consumo. Come tutta la gamma di arredi, anche quelli del catalogo Regeneration sono realizzati in impianti progettati con tecnologie all'avanguardia dal punto di vista dell'ecosostenibilità. Sempre in ottica ecologica, gli imballi di protezione sono in cartone e polietilene a bassa densità completamente riciclabili, entrambi concepiti per essere ridotti al minimo. Le scatole contenitive di cartone sono composte mediamente dal 75% di fibre riciclate, con l'impiego di amido di mais come collante. Diverse sono, inoltre, le iniziative dell'azienda a favore di un corretto utilizzo e smaltimento degli imballaggi e dei bancali per il trasporto.

Nardi produces outdoor furniture tailored to people's well-being and relaxation. Working to make processes increasingly sustainable is an integral part of the philosophy of our company which, in 2019, launched the line of Regeneration products dedicated to making outdoor furniture also containing a percentage of post-consumer regenerated resin. Like the entire range, the furniture in the Regeneration catalogue is made in production plants designed with state-of-the-art technology based on eco-sustainability. Also in keeping with an eco-friendly perspective, protective packaging is made of cardboard and fully recyclable low-density polyethylene, which are both designed to be minimised. On average, cardboard boxes are made of 75% recycled fibres, with maize starch used as glue. Several of our company initiatives also support the correct use and disposal of packaging and transport pallets.

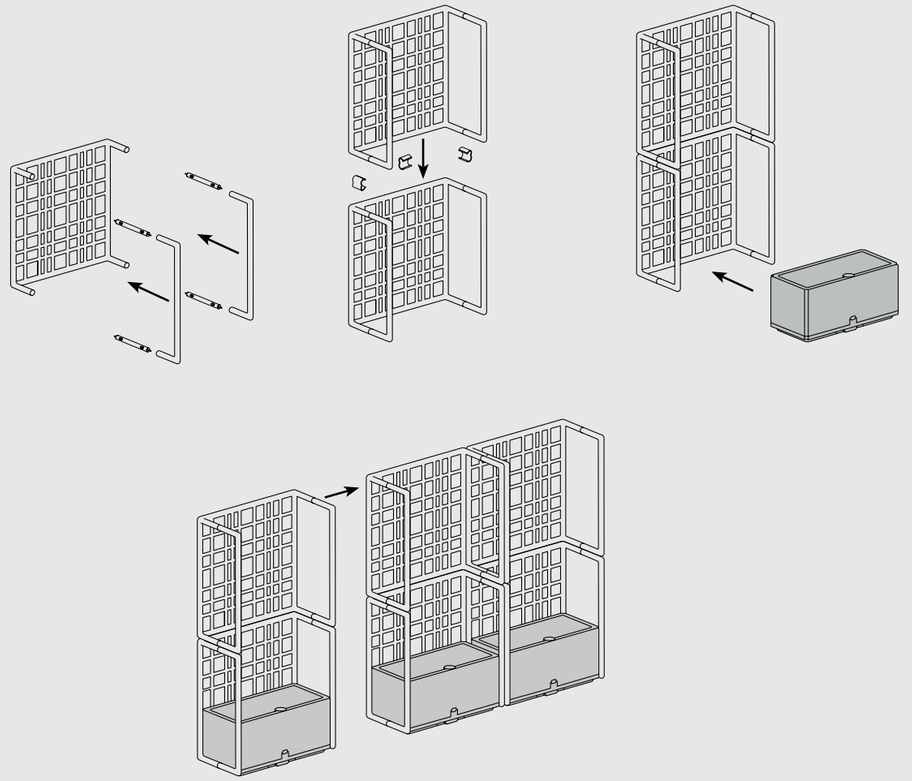
SIPARIO



SIPARIO è un divisorio modulare autoportante da esterno
configurabile a piacere, ideale per dividere gli spazi aperti.
È costituito da elementi grigliati facilmente agganciabili tra loro senza l'uso di viti
e dotato di vaso contenitore per piante. È un prodotto realizzato in polipropilene
contenente anche una percentuale di resina rigenerata post consumo.

SIPARIO, a free-standing modular partition for outdoor use,
can be configured as required and is ideal for separating open spaces.
It consists of grid elements, easily hooked together without using screws,
and includes a container for plants. This product is made of polypropylene and also
contains a percentage of post-consumer regenerated resin.

durelTOP

DurelTOP è un sistema innovativo di produzione di piani per tavoli studiati per raggiungere i più elevati livelli di praticità, resistenza, robustezza ed eleganza. I piani DurelTOP sono ad alto spessore, formati da un doppio strato tamburato perfettamente chiuso. Prodotti in polipropilene di prima qualità, sono inalterabili all'acqua, resistenti al sole e facili da pulire. DurelTOP è il risultato di una lunga ricerca tecnologica e dell'esperienza nella lavorazione delle materie plastiche della NARDI, da sempre all'avanguardia nell'ambiente contract e giardino.

The DurelTOP is an innovative new system in the production of tabletops developed to reach the highest levels of practicality, resistance, and elegance. The DurelTOP tabletops have a greater thickness, formed by a double layer enclosure perfectly closed. Produced in first quality polypropylene, they are resistant to water, resistant to sunlight, and are easy to clean. DurelTOP is a result of a long research and development in plastics by NARDI, always a leader in the contract and garden sectors.
